

## Tenure-Track Faculty Positions of Quantum Technology

The Department of Physics at National Sun Yat-sen University, Kaohsiung, Taiwan, is seeking to fill several faculty positions at all levels. Special consideration will be given to candidates who have experimental background in quantum science and technology. More specially, research fields in quantum computing (superconducting qubits or spin qubits), quantum communication and quantum sensing are welcome. The University provides negotiable starting fund depending on the qualification of candidates. The earliest starting date is 08/01/2024 but the positions are available before being filled. Candidates should have a Ph.D. in physics or closely-related fields, show convincing interests in mentoring students and be able to teach physics core courses at all levels, many of which are lectured all in English. Some postdoctoral experience at international institutions is preferred for junior-rank applicants. Please have a CV with a list of publications, brief plans of research and teaching with at least three recommendation letters sent to Ms. Hsu at [physaa@mail.nsysu.edu.tw](mailto:physaa@mail.nsysu.edu.tw).
